Data and Data Storage

Data are characteristics or information, usually numerical, that are collected through observation.

Data storage is a general term for archiving data in electromagnetic or other forms to use by a computer or device.

Data storage

- CD (compact disk)
- DVD (digital versatile disc)
- HDD (hard drive)
- memory stick
- memory card

- eject
- free storage space
- capacity
- data storage capacity
- burn

Let's fill in the blanks

burn	capacity	card	drawer
eject	free space	hard drive	stick

- 1. The data and applications on your computer are stored on the __hard__.
- 2. To run this application you need at least 50MB of __free space__ on your hard drive.
- 3. My computer's hard drive has a __capacity__ of 120GB.
- 4. Do you like this CD? I can __burn__ you a copy if you want.
- 5. The opposite of "Insert the DVD" is "__eject__ the DVD".
- 6. I can't eject the CD. I think the __drawer__'s stuck.
- 7. Digital cameras usually store pictures on a memory __stick__ or a memory __card__.

Bluetooth

- telecommunications
- devices
- wireless
- data
- enabled
- developed
- signals

Bluetooth® technology enables 1 _wireless_ communication between 2 _devices_ such as laptop computers, mobile phones and PDAs. Bluetooth® 3 _enabled_ devices use short-range radio 4 _signal_ to Exchange 5 _data_ quickly and easily. The technology was 6 _developed_ by a group of computer and 7 _tele_ companies including IBM, Intel, Nokia and Ericsson.

Which do you think is the best solution for each problem? (More than one solution is possible for some of problems.)

1. I want to make a copy of a music CD.	a) You need an **external hard drive**. 5
2. I want to store some files in a CD. I may need to update them in the future.	b) Use a **CD-R**.
3. I want to back up some files from my computer.	c) Try a **USB flash drive**. 3
4. My computer's having problems with reading CDs.	d) Perhaps you need a new **internal CD drive**. 4
5. I want to add 100MB of extra storage to my computer.	e) Put them on a CD-RW. 2
6. I want to send a copy of a small file to a friend. He has an very old computer.	f) Perhaps you need to **defragment** the hard drive. 7
7. My computer's running slowly.	g) You could put it on a **floppy disk**. 6
